Series	Product Name	Product Spec.	Packing Info	Product Photo
Sunmatte	Humino Acid	Appearance: Black-brown prill Size: 2-4mm Organic Substance: $\geq 70\%$ Humic Acid (dry basis): $\geq 40\%$ Amino Acid: $\geq 10\%$ Nitrogen: $\geq 16\%$ K_2O : $\geq 1\%$ Moisture: $\leq 6\%$ pH: 2.5-5.5	In 50/25kg net plastic woven bags lining inside or at client's request.	
	Potassium Humate 99 Flake	Appearance: Black-brown flake HumiVic Acid (dry basis): $\geq 85\%$ (HA: 70%+FA: 15%) K_2O : $\geq 10\%$ Trace Elements: $\geq 5\%$ Water Solubility: 100% pH: 9-11	In 20kg net plastic coated paper bag lining inside or at client's request.	
Sunmatte Potassium Humate	Potassium Humate 98 Flake	Appearance: Black-brown flake HumiVic Acid (dry basis): $\geq 85\%$ (HA: 70%+FA: 15%) K_2O : $\geq 8-10\%$ Trace Elements: $\geq 5\%$ Water Solubility: $\geq 98\%$ pH: 9-11	In 20kg net plastic coated paper bag lining inside or at client's request.	
	Potassium Humate 97 Flake	Appearance: Black-brown flake Organic Matter: $\geq 90\%$ HA+FA (dry basis): $\geq 80\%$ K_2O : $\geq 10\%$ Water Solubility: $\geq 97\%$ pH: 8-10	In 25kg net plastic woven bags lining inside or at client's request.	
	Potassium Humate 95 Powder	Appearance: Black-brown powder Powder: 80mesh Organic Matter: $\geq 90\%$ Humic Acid (dry basis): $\geq 80\%$ K_2O : $\geq 10\%$ Water Solubility: $\geq 97\%$ pH: 8-10	In 25kg net plastic woven bags lining inside or at client's request.	
	Potassium Humate 90 Granule/Powder	Appearance: Black-brown powder/granule Size: Granule: 0.2-1mm; Powder: 80mesh Organic Matter: $\geq 85\%$ Humic Acid (dry basis): $\geq 70\%$ K_2O : $\geq 8\%$ Water Solubility: $\geq 95\%$	In 25kg net plastic woven bags lining inside or at client's request.	

Sunmatte Fulvic acid	Bio-Chem Fulvic Acid 80%	Appearance: Brown yellow powder Powder:100-120mesh Fulvic Acid (dry basis): $\geq 80\%$ Ammonium nitrogen: $\geq 6\%$ Moisture: $\leq 5\%$ Water Insoluble Substances: $\leq 1\%$ pH: 5-6	20kg net plastic coated paper bag lining inside or at client's request.	
	Fulmino Granule	Size: 1-2mm Organic Matter: $\geq 45\%$ Fulvic Acid: $\geq 10\%$ NPK: $\geq 5\%$ pH: 5-7	In 25kg net plastic woven bags lining inside or at client's request.	
	Fulvic Acid 60% (Mine Sourced)	Fulvic Acid (dry basis): $\geq 60\%$ Water Solubility: 100% pH: 5-7 / 8-10	In 25kg net plastic woven bags lining inside or at client's request.	
	K- Fulvic 60%	Fulvic Acid (dry basis): $\geq 60\%$ Potassium(K ₂ O): $\geq 12\%$ pH: 8-10	In 25kg net plastic woven bags lining inside or at client's request.	
	Bio-chem Fulvic Liquid 50%	Appearance: Black brown gel Fulvic Acid (dry basis): $\geq 50\%$ Total N&K: $\geq 6\%$ pH: 3-4 Water Solubility: 100%	In 1L, 5L, 10L, 25L, 200L net plastic bottles/drums	
SunmatTec	HumiVic Liquid	Humic Acid (dry basis): $\geq 45\text{g/L}$ Fulvic Acid (dry basis): $\geq 10\text{g/L}$ N: $\geq 60\text{ g/L}$, P ₂ O ₅ : $\geq 50\text{ g/L}$ K ₂ O: $\geq 50\text{ g/L}$ pH Value: 5-7 Trace Element: $\geq 2.5\text{g/L}$ Specific Gravity: 1.1-1.2	In 250ml, 500ml, 1L, 5L, 10L, 25L, 200L net plastic bottles/drums	
	Humic Acid Liquid	Humic Acid (dry basis): $\geq 40\text{g/L}$ N: $\geq 80\text{ g/L}$, P ₂ O ₅ : $\geq 60\text{ g/L}$ K ₂ O: $\geq 60\text{ g/L}$	In 250ml, 500ml, 1L, 5L, 10L, 25L, 200L net plastic bottles/drums	
	K-rich Humic	Humic Acid (dry basis): $\geq 40\text{g/L}$ N: $\geq 90\text{ g/L}$, P ₂ O ₅ : $\geq 60\text{ g/L}$ K ₂ O: $\geq 200\text{ g/L}$	In 250ml, 500ml, 1L, 5L, 10L, 25L, 200L net plastic bottles/drums	
	Probio - Wide (Plants Probiotics)	Organic Matter: $\geq 100\text{g/L}$ N: $\geq 80\text{g/L}$ P ₂ O ₅ : $\geq 80\text{g/L}$ K ₂ O: $\geq 60\text{g/L}$	In 250ml, 500ml, 1L, 5L, 10L, 25L, 200L net plastic bottles/drums	

	Probio - Star (Plants Probiotics)	CFU: \geq 0.5 billion/ml Organic Matter: \geq 40% Amino Acid: \geq 9% Humic Acid (dry basis): \geq 7.5% NPK: \geq 5% Crude Protein: \geq 29%	In 250ml, 500ml, 1L, 5L, 10L, 25L, 200L net plastic bottles/drums	
Sunmatte Seaweed Extract	Seaweed Extract Flakes/Powder	Appearance: Black brown flake/powder Organic Matter: \geq 50% Alginic Acid: \geq 16% Total Amino Acid: \geq 2% Total Nitrogen: \geq 1% K ₂ O: \geq 16% Mannitol: 3% pH: 8-10 Water Solubility: 100%	In 20kg net plastic coated paper bag lining inside or at client's request.	
Sunmatte Amino Acid	Amino Acid (Plant Sourced)	Plant Sourced (NH₄CL) Type: Appearance: Light yellow powder. Total Amino Acid: \geq 42% Total Nitrogen: \geq 17% Amino Acid Nitrogen: \geq 6% Ammonium Chloride: \leq 40% Water Insoluble Matter: \leq 1% Moisture: \leq 5% pH: 4-6	In 20kg net plastic coated paper bag lining inside or at client's request.	
	Amino Acid (Plant Sourced)	Plant Sourced (NH₄)₂SO₄ Type: Total Amino Acid: \geq 40% Total Organic Matter: \geq 50% Ammonium Sulphate: \leq 35% Total Nitrogen: \geq 15% Amino Acid Nitrogen: \geq 6% pH: 4-6	In 20kg net plastic coated paper bag lining inside or at client's request.	
	Amino Acid (Animal Sourced)	NH₄CL Type: Appearance: Light yellow powder. Total Amino Acid: 42-48% Total Organic Matter: \geq 50% Ammonium Chloride: \leq 50% pH: 4-6	In 20kg net plastic coated paper bag lining inside or at client's request.	
	Amino Acid Liquid 30%	Amino Acid: \geq 30% Amino Nitrogen: \geq 0.4% Proportion: 1.2 pH: 3.5-5.0	In 250ml, 500ml, 1L, 5L, 10L, 25L, 200L net plastic bottles/drums.
